# The TEMPUR® Difference

## Outstanding Comfort and Support

Once you have slept on a TEMPUR® mattress and pillow, you realise there is no comparison. The TEMPUR temperature-sensitive material conforms to the exact shape of your body. It reduces the discomfort caused by pressure points by redistributing pressure so you can immediately relax into your most comfortable sleeping position and remain there fully supported. It is this balance of outstanding comfort and support that has earned TEMPUR a number one ranking for 'overall customer satisfaction' and 'overall quality of sleep' in each of 13 countries surveyed\*.

## Feel Weightless

At TEMPUR® we believe that whatever your shape, size or age, your mattress should contour to the unique shape of your body, and not the other way around. That's why we have a range of mattresses and pillows, to give you the personalised support you need while you sleep. With the help of our TEMPUR Sales Consultants at your local showroom, we encourage you to test our products and let your body decide. We believe that with our innovative sleep technology, all you'll feel is weightless.

Ordinary spring mattresses can cause unnatural sleeping positions and pressure resulting in numbness and discomfort.

\*The findings are based on interviews with over 1300 TEMPUR mattress owners in 13 European countries (Austria, Denmark, Finland, France, Germany, The Netherlands and Belgium, Italy, Norway, Sweden, Spain, Switzerland and the UK) and the percentages and average number of recommendations recorded are high in each country but not identical.

# 4 Steps to your best night's sleep

TEMPUR® is not just about being able to sleep on a great mattress, it is also about enjoying the perfect sleep experience and designing a solution that complements your bedroom style. Your ideal TEMPUR bed includes four key elements.

## 1 Mattress selection

**The mattress** is the most influential factor in determining whether you are comfortably supported at night. As sleeping well is essential for your health and wellbeing, it is important to invest in a good quality mattress that offers the comfort and support that you need. TEMPUR® offers a wide range of mattresses with different comfort feels and features, all of which offer superior TEMPUR support. To discover which mattress suits you best, try them out for yourself at a store near you.

## 2 Pillow Choice

**A good pillow** that properly supports your head and neck in a comfortable position is vital to enjoy your best night's sleep. Review the wide selection of TEMPUR pillows and discover how the various shapes, feels and styles suit different needs and sleep positions.

## 3 Bed Frame Design

**The Bed Frame** is the component that ultimately determines how your bed looks in your room. TEMPUR Bed Frames come in a range of styles and colours to complement your bedroom. Each is constructed using high quality materials and wear-resistant fabrics.

## 4 Bed Base Options

**A quality Adjustable** can boost the durability and ventilation of your mattress. When selecting a Bed Base consider which features are important to you. Adjustable models make it easy to read and watch TV in bed, or raise tired legs to lie or sit more comfortably. For the ultimate in relaxation, consider adding features like a massage unit to your Bed Base.

## EASY MAINTENANCE

Everyone wants to sleep in a clean environment so unlike most mattresses, where the cover is an integrated part of the mattress, the cover on most TEMPUR Mattresses as well as the TEMPUR Pillows can be easily removed to be cleaned or aired. The cover is anti mite treated and the treatment is an integrated part of the cover. The high density and the permanent memory of the TEMPUR Material allows it to return to its original shape every time. That is why the TEMPUR Mattress never needs to be flipped, rotated or turned.
